Building on country networks

30 years ago

TDR was the single major global player in research & training in tropical diseases

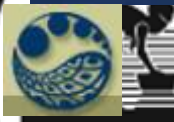

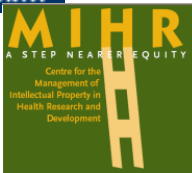

Medicines for Malaria Venture

Schistosomiasis Control Initiative

SECURE THE FUTURE

Global Polio Eradication Initiative

GLOBAL ALLIANCE FOR TB DRUG DEVELOPMENT

Global Forum for Health Research

EMVI

The European Malaria Vaccine Initiative

NetMark Public-Private Partnerships

Hope for African Children Initiative

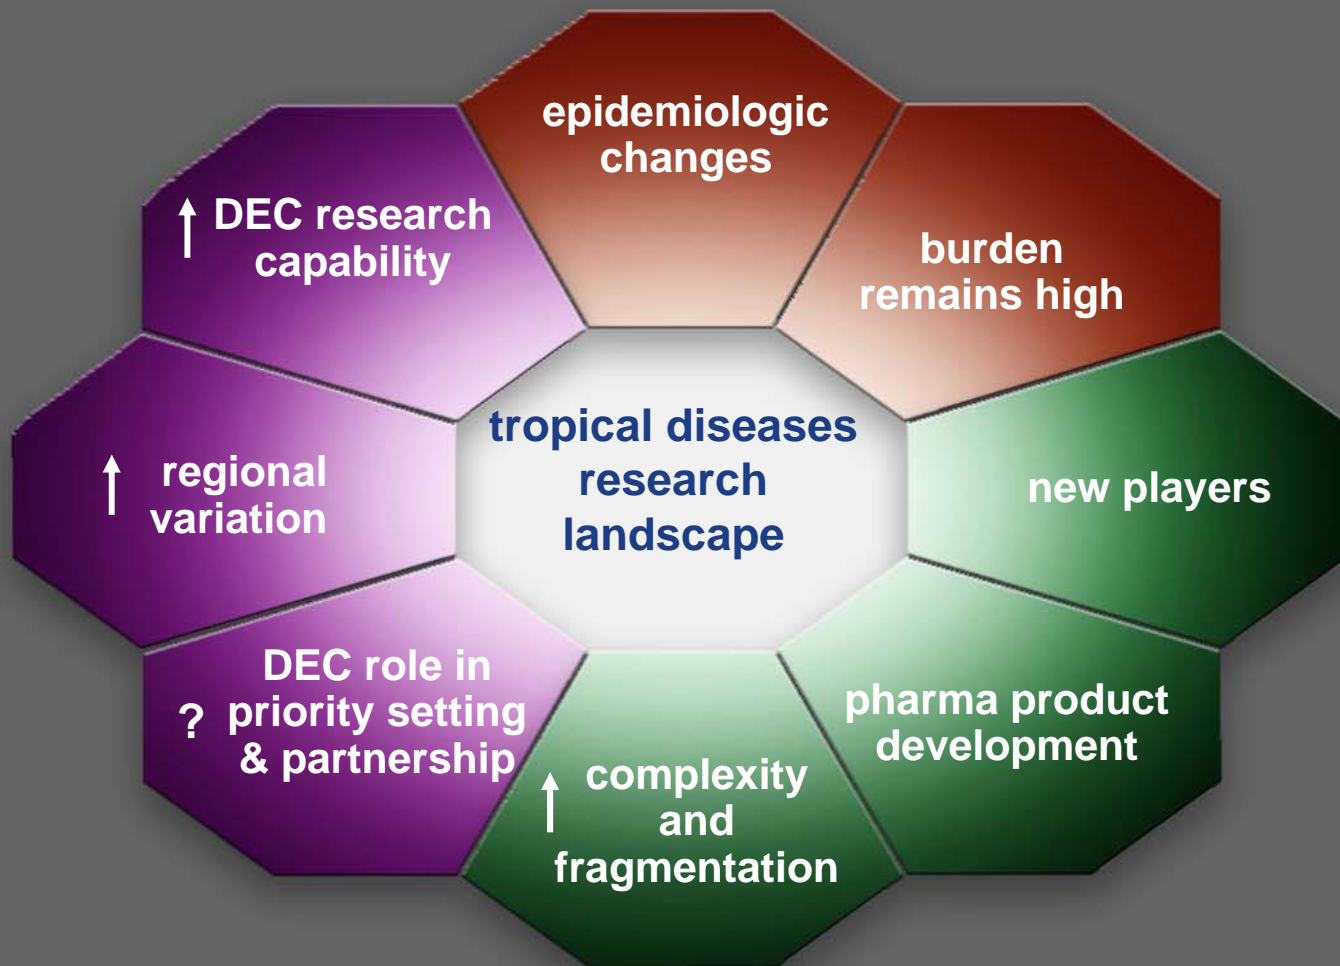

UNICEF/WHO Special Programme on Training in Disease Eradication, Control and Prevention

BILL & MELINDA GATES foundation
Bringing innovations in health and learning to the global community

Trends in the infectious disease research environment

What is needed?

An effective (*concerted, coordinated, harmonized*) global research effort on infectious diseases of poverty in which disease endemic countries play a pivotal role

Revisiting TDR's support platform

Implications on research focus

Fostering an effective global research effort on infectious diseases of poverty in which disease endemic countries play a pivotal role

Strategy framework

Business lines

- focused well defined lines of research

Two critical
elements
of the
portfolio

Milestones, indicators of performance/impact

BL1 : Stewardship

BL2 : Empowerment

Upstream

Downstream

Basic research

Discovery

Product Development

Intervention Development

Real-life Evaluation

Research for Access

BL3 : Lead discovery of drugs and diagnostics

BL4 : Innovation for product development in DEC

BL5 : Innovative vector control interventions

BL6 : Helminth drug development and evaluation

BL7 : Accessible quality assured diagnostics

BL8 : Evidence for treatment policy of HIV and TB co-infection

BL9 : Evidence for antimalarial policy and access

BL10 : Visceral leishmaniasis elimination

BL11 : Integrated Community-based interventions

BL across the R&D pipeline

Strategic function:

Research on neglected priorities

priorities not adequately addressed
by other partners (*added value ?*)

(research on products, interventions and access)

Products from research on neglected priorities

Innovation

- Leads transferred to development
- Product R&D projects led by DEC

Interventions

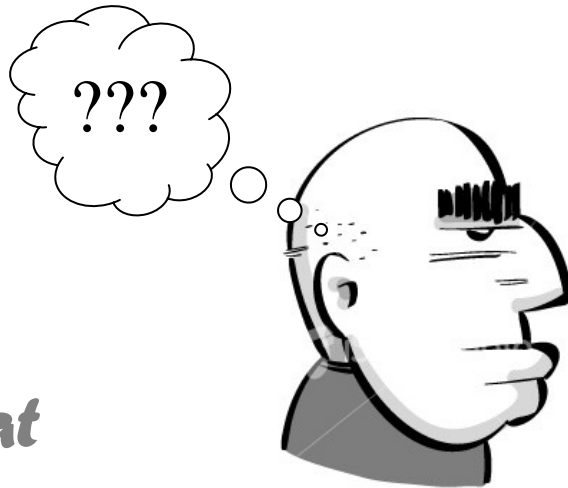

- New intervention tools and strategies
- Real-life evidence to inform policy
- Cost-effective elimination/surveillance strategies

Access

- Integrated, community based strategies
- Cost-effective scale-up
- Determinants of implementation understood
- Research culture within control programmes

Strategic function: Stewardship

aiming at

***direction, coherence, harmonization,
collaboration and sharing
information in health research***

Impact from stewardship

Stewardship

- Consensus on priority needs
- Harmonization of efforts
- Equitable access to information
- DEC government support for research

Stakeholders representative

UN org

Bilateral agency

Admin controller

Northern partners

Data manager

Quality control manager

Advocacy

Funding agency

Project manager

Joe (PI)

WWW.DANOSSE.COM

Strategic function:

Empowerment

aiming at

capacity,
engagement,
quality

negotiation skills
decision-making,
leadership

Impact from empowerment

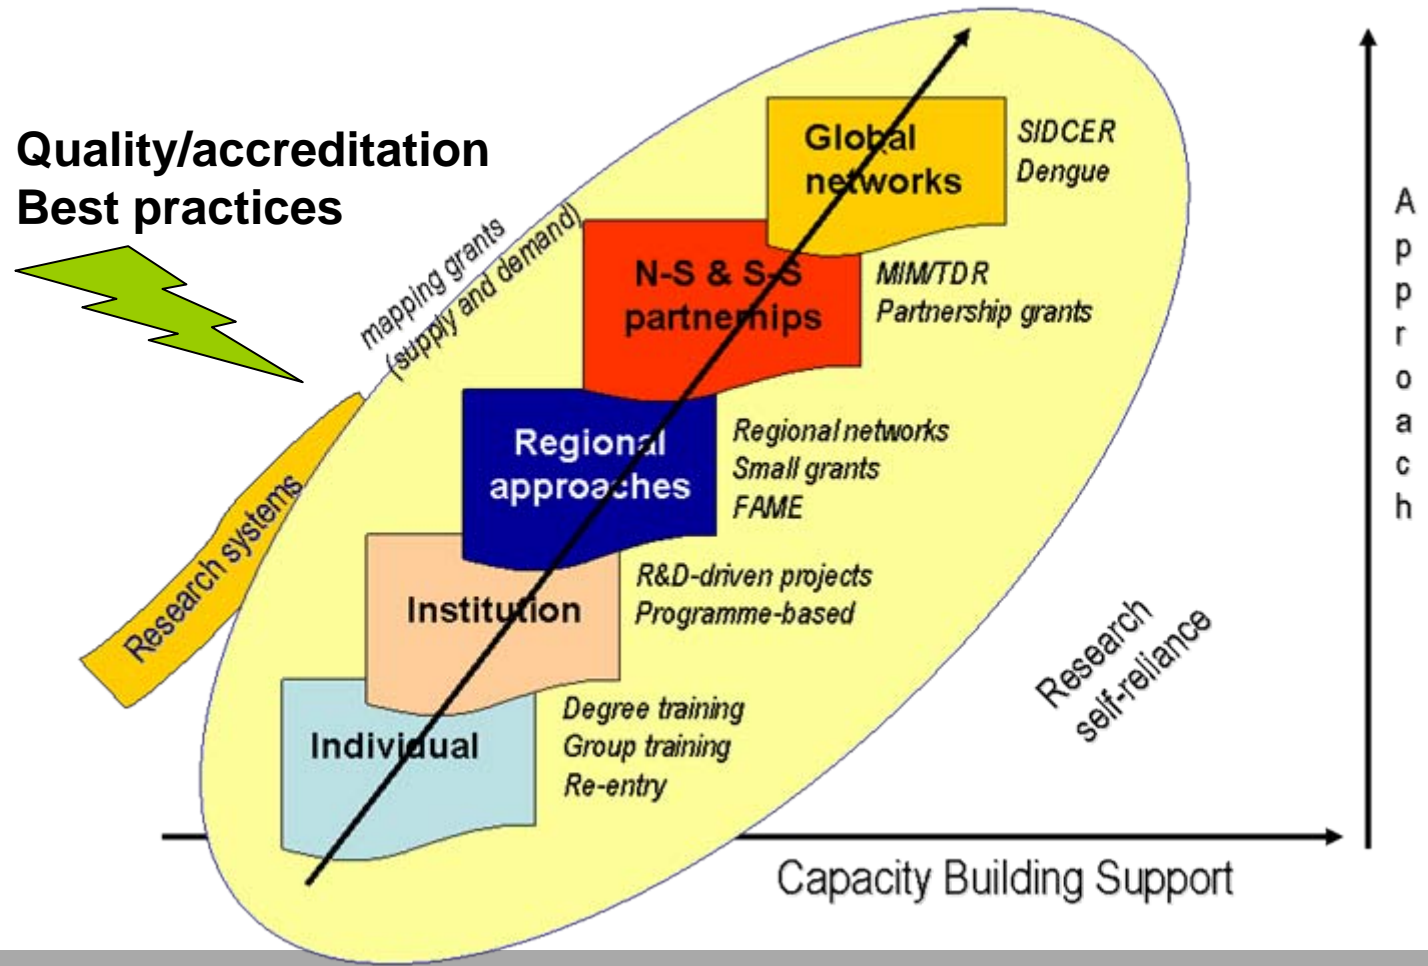

Empowerment

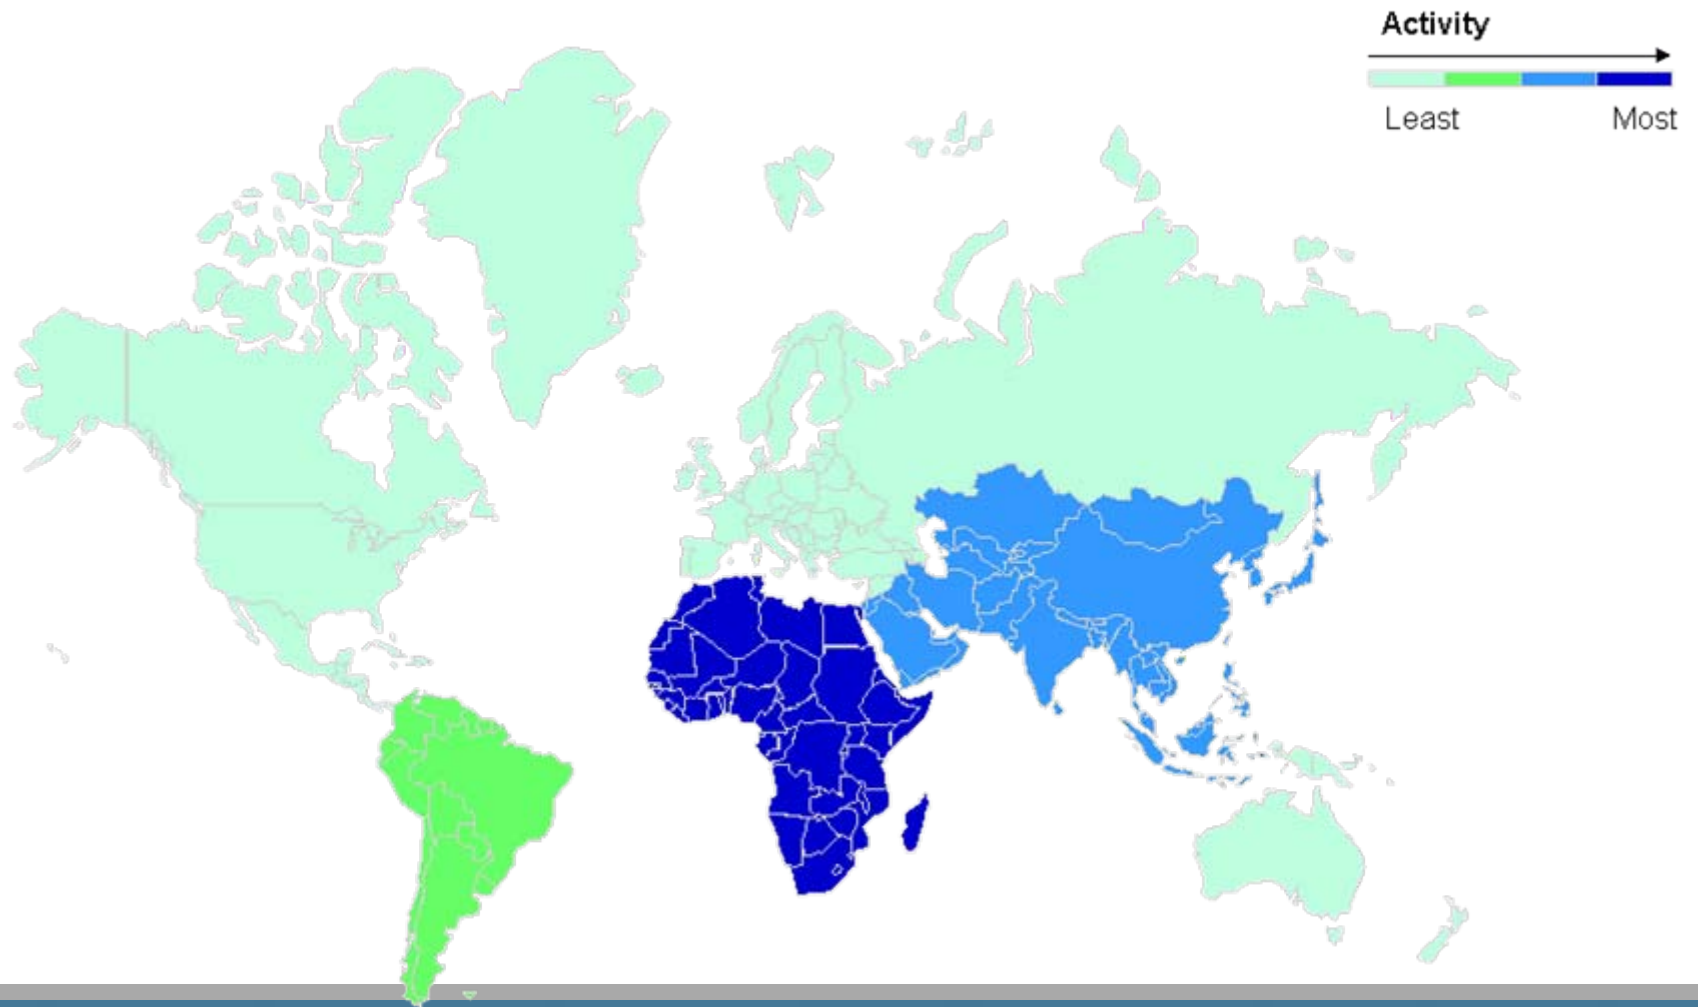

- DEC leadership in priority setting
- Quality research from DEC's
- Effective negotiation of partnerships
- Use of results for policy and implementation
- Regional research networks

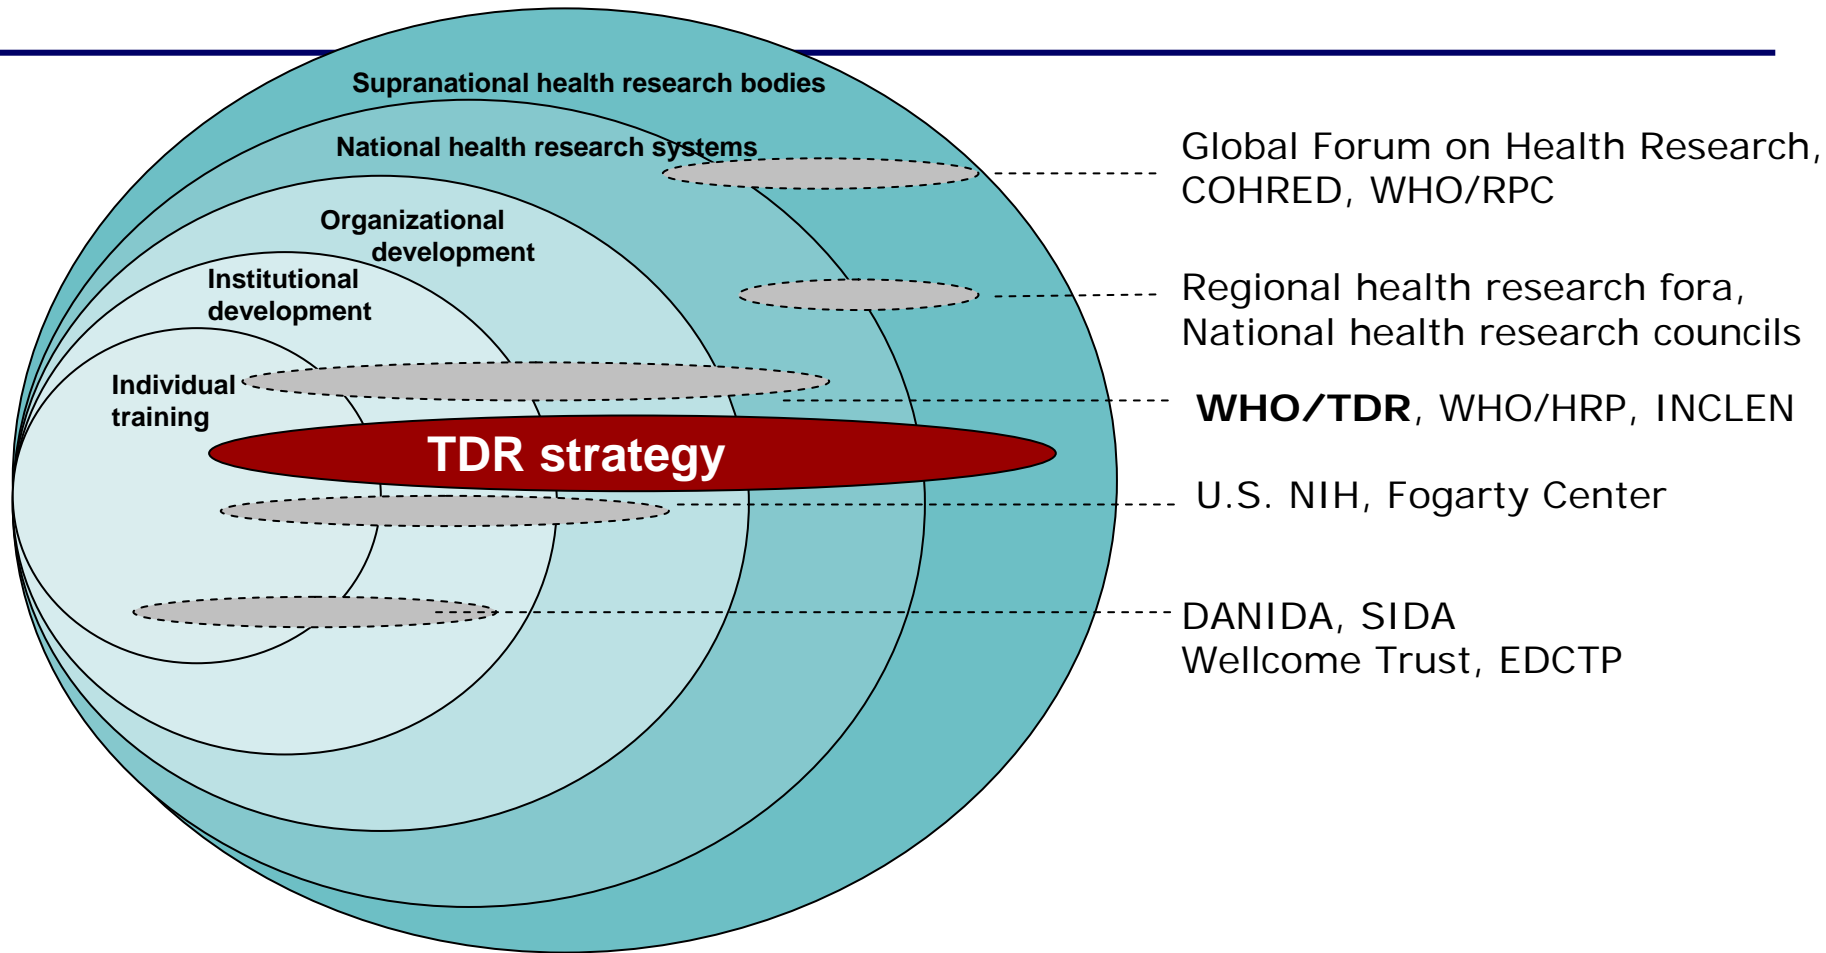

Sustainable research leadership in developing countries

Geographic focus of portfolio

Expansion of scope

TDR Interim Impact Dashboard

15 Supporting Interim Impact dimensions

Interim monitoring metrics

1

1. Global consensus on priority research needs
2. Equitable access to health research information
3. Greater engagement of key institutions/networks

- # of quality consultations/reports for consensus facilitated by TDR
- Surveyed user satisfaction levels with knowledge platform
- % of key institutions/networks actively involved in TDR forums

2

4. Quality research led by DEC scientists and institutions
5. Sustainable regional research and knowledge networks
6. DEC effectively negotiating research partnerships

- # of publications with DEC researchers as lead authors
- # of DEC research institutions/networks improved towards international standards
- # of partnerships with DEC researchers as leads

3a

7. Promising leads identified & transferred to partnerships
8. Effective north-south innovation networks established
9. Product R&D managed by DEC institutions

- % of lead development/transfers at planned milestones
- # of innovation networks established / expanded / strengthened
- # of key R&D projects managed by DEC institutions

3b

10. Evidence on real life safety and effectiveness of tools
11. Effective intervention tools and strategies
12. Cost-effective elimination and surveillance strategies

- % of real-life safety/effectiveness evaluations at planned milestones
- % of intervention tools and strategies at planned milestones
- % elimination/surveillance strategies at planned milestones

3c

13. Integrated strategies for large scale intervention delivery
14. Cost-effective strategies for scale-up of interventions
15. Research culture within control programmes

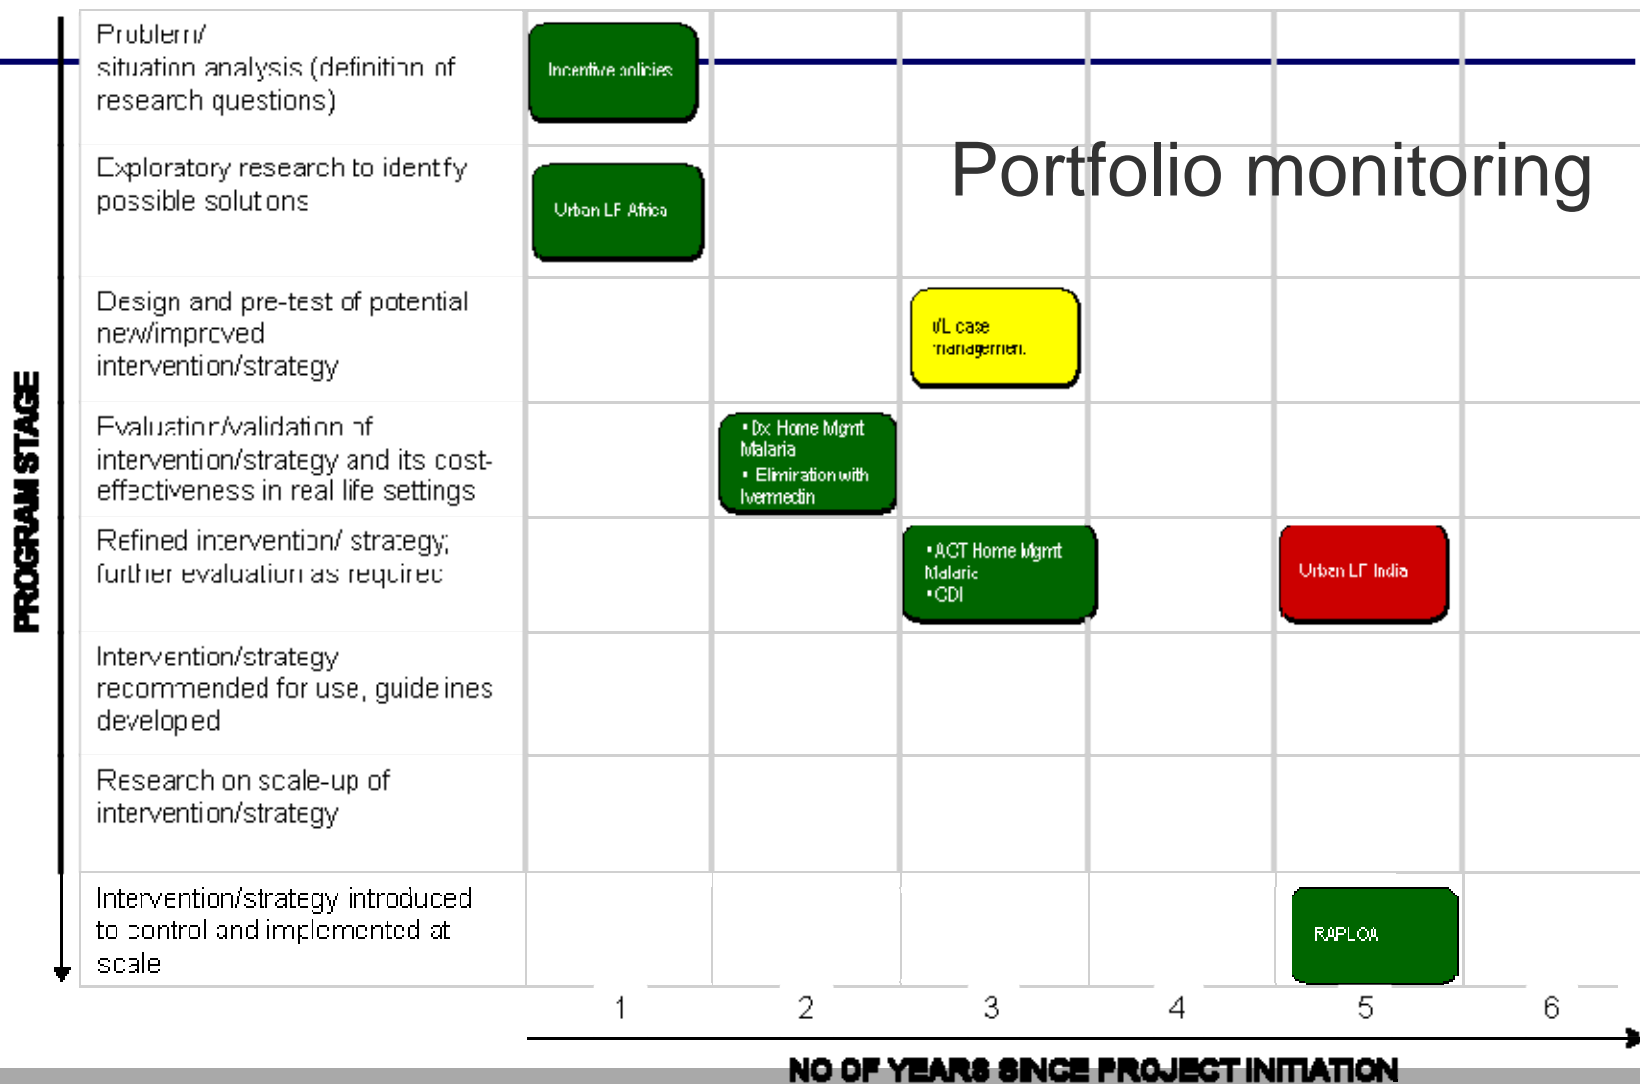

- % integrated intervention delivery strategies at planned milestones
- % cost-effective scale-up strategies at planned milestones
- # of control programmes actively involved in research projects

EARLY 2007 STATUS

NOT EXHAUSTIVE

- **Significantly behind plan**
- **Slightly behind plan but likely to get on track**
- **Well or back ahead of plan**

Home

A New Service from TDR

A knowledge portal for the global tropical disease community.

Bringing together the latest news, events and discussion in tropical disease research and control.

TropIKA.net Launch Q4 2007

The tropical disease research and control community is overwhelmed by the massive volume of current biomedical and public health literature, international policy initiatives and diverse funding opportunities. The result is a complex mix of information that obscures the essentials.

TropIKA.net is designed to filter the flood and help you find and interpret the information you need, connect you with colleagues around the world, and insure that priority research needs receive visibility.

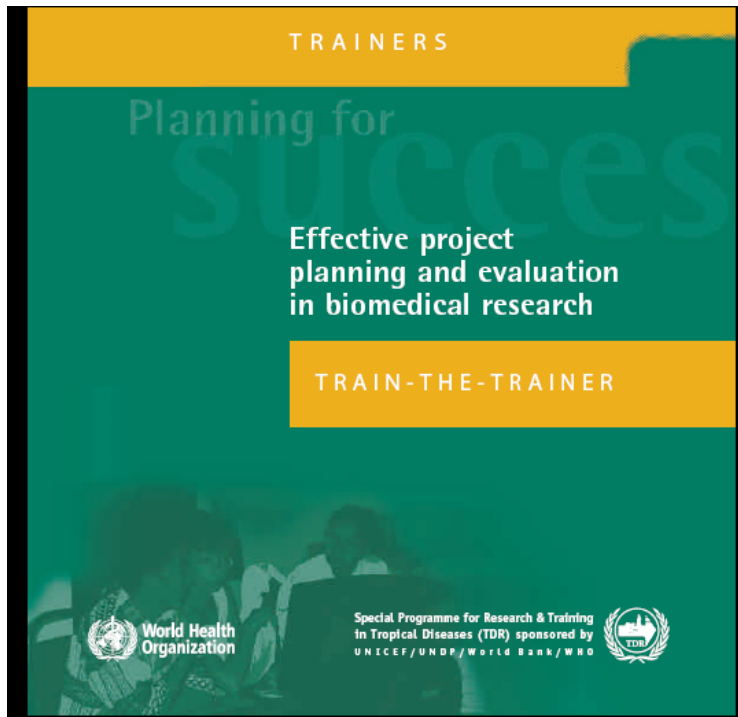

The TropIKA.net team will scan the literature and give you awareness of the news, research and events that are relevant to your areas of
